Please review the schedule at www.trebleradiorocks.com/schedule.htm for available slots please...I'm not going to go look for you!

What is your DJ experience: _____

One reference please (e-mail): _____

Treble Radio is currently licensed individually with ASCP and BMI respectively. This enables Treble Radio to play any and all published works represented by these two organizations. If there is a question as to what is represented please contact senior Treble Radio management. In the event any DJ intends to play Independent Artist (IA) works then he/she needs to have that independent individual or organization authorize its air play. Proof must be maintained in the form of E-Mail communications for the protection of all involved. Any (IA) works provided to the general DJ population by Treble Radio have been approved for distribution. In the event that works are not provided, it should be assumed that it has been expressed that the artist wants selective control and it will be up to that individual DJ to contact the artist/organization for their approval.

Each DJ's show is their own entity and the show is run and covered by that individual. If for some known reason you can't make it please let senior management know...if not, life happens...we will catch up at some point. There are no rules to your show save for two...we tolerate a zero racism policy on Treble Radio as well as zero discrimination. We expect the DJ's to run their shows with respect to the listeners with as much courtesy as they are afforded from the listeners. Having said all that...we welcome your application and ROCK ON!!!!!!!!!!
